### COACHES INSTILL RUDIMENTS INTO QUAKER ELEVEN

Players Given Thorough Drill in First Phases of Like Logical Choice for One of the Ends.

A surprise was handed out on Franklin Field this afternoon when the Penn coaches reverted to the rudimentary methods employed for pre-season practice, and drilled the entire squad in the kindergarten points of the game. First the men were divided into three distince groups, and each occupied a separate pertion of the gridiron. Head Coach Brooke had charge of all

the backfield candidates, and gave them a lengthy drill in following and forming interference, one of the vital weaknesses that cropped up in Saturday's game.

By Dickson employed like methods with the ends, who were set at the distanteful task of tackling the dummy until all were ready to cry quits. There is more dissatisfaction with the ends a present than with any other position. The majority of the wing candidates are slow and awkward, and those of them that look shifty are a trifle too light for the Pennsylvania system. This applies particularly to Larry Mur-

dock, who is very game and a hard tackier, but his inferior weight makes him of little use in aiding the other linemen on off tackle plays. Mathews looks more and more like the logical choice for one of the ends. He was a star of the first magnitude with last season's freshmen backfield, and with a little polishing up, could easily be made into a first-class end. Mathews and Carter were given much of Brooke's attention in drop and place kicking this afternoon, and here again Mathews was in his tries, no matter what the angle, and made some really creditable kicks count from the vicinity of the 40-yard

While the backs and ends were going through their paces, the line candidates were not idle by any means. Blondy were not idle by any means. Blondy Wallace gave every man a chance to show his worth on the charsing macaine, and as the weather was in no way mild every one had more than enough by the time that Blondy was ready to call a halt.

This afternoons surfaces to the control of the

#### HURLS STOVE FROM WINDOW Woman Prevents Fire in Apartments by Bravery.

Presence of mind and bravery on the part of Mrs. F. D. Sweeney, 2248 Chestnut street, prevented what might have been a disastrous fire shortly before noon today when she seized a blazing oil stove and hurled it from the window of her apartment. The stove exploded, setting fire to a fence, and an alarm was sent in. An engine company from 37th and udlow streets extinguished the blaze. A servant in the Sweeney apartments was cleaning the stove in preparation for cold days. In some manner the oil can ignited. The servant screamed, and Mrs. Sweeney, taking in the situation at a glance, hurled the stove from her window,

### RUSSIA ACCEPTS TERMS OF PEACE PACT WITH U.S.

Ambassador Bakhmeteff and Secretary Bryan Will Sign Convention Tomor- ELEVATORS DEFECTIVE, CITY INSPECTORS SAY

[PROM OUR STAFF CORRESPONDENT.] WASHINGTON, Sept. 30 .- "I have just onferred with Mr. George Bakhmeteff, the Russian Ambassador, and agreed upon the terms of the peace treaty with Russia and the convention will be signed tomorrow."

This statement was made to the

EVENING LEDGER correspondent this afternoon by Secretary of State Bryan. Treaties of peace already have been signed with Great Britain, France, Spain and China and a score of other nations during the Wilson Administration. Secretary Bryan, in his talk with the EVENING LEDGER correspondent, added:

"It may also interest the public to know that Greece and Sweden have agreed to sign similar treaties, and I am hopeful that these new pacts, bringing the total up to 28, will be signed by early next week." Russia's manifestation of friendship for the United States expressed by the signing of the peace treaty tomorrow may lead to negotiations for a new treaty of commerce and navigation between the two countries to replace the one abro-

gated during the Taft Administration.
This was the view of many diplomatists and officials. The treaties provide for the submission of all disputes that cannot be settled by diplomacy to a permanent commission for investigation dur-ing a period of one year, and are regarded by the Washington Government as a practical safeguard against any sud-

den outbreak of war.
Officials expressed the view that Russia's reported modification of stringent regulations against the Jews because of their loyalty to the Government in its struggle in the present European war might pave the way for an understanding for a new treaty. The former treaty was denounced by Congress and became in-operative January 1, 1913, because it was interpreted by Russia as permitting the exclusion of American Jews from her dominions.

Neither Germany nor Japan has signified a willingness to sign similar pacts as yet, but the subject is under consid-

#### BISHOP REPORTS 2000 NEW UNITED BRETHERN MEMBERS

Attributes Large Part of Growth to "Billy" Sunday's Influence.

The 115th annual meeting of the East Pennsylvania Conference of the United Brethren Church was formally opened in the Second United Brethren Church, 53th and Catharine streets, this morning, with Bishop William M. Weekley, of Parkesburg, W. Va., presiding. There were about 200 clergymen and delegates in attendance. The conference will continue through Sunday, and the appointments of pasters will be made an Sunday. ments of pastors will be made on Sun-day morning.

Following the sermon of Bishop Week-ley, the Rev. Dt. D. D. Lyter, the con-ference superintendent, made his report

which showed that there had been exceptional material growth the last year, there being many new churches erected and many church properties improved. Pishop Weekley, in his address, de-clared that in the western part of Penn-sylvania he has found more than 2000 additional members in the churches, and better financial conditions generally, largely because of the evangelistic cam-paigns of "Billy" Sunday in that sec-tion. He prophesied that the East Fennsylvania Conference would see a like growth as the result of the cam-paign Mr. Sunday is to wage here this winter and because of another evangelistic rally to be conducted in Harrisburg November by the Rev. Dr. Henry W

In his talk Bishop Weekley said in part:
"While the present war in Europe is
"While the present war in Europe is while the present war in Europe is sad beyond description, yet I trust you will not allow it to divert your attention from your duties as ministers. The crowned heads in the war zone believe in the supremacy of Christ, but they have a wrong conception of his religion. They must come to see that the victory of Christ's Kingdom is not achieved through human might, or by the sword or can-non, but by preaching of energized morals through the Holy Spirit. When the war-is over there will be but two great pow-ers in Europe—one for aristocracy and one for democracy. One will stand for the empires and the other for republics. One will demand increased armament and the other will demand disarmament. Let the people rule—for if the people's will is carried out there will be no war.

"I am thankful that President Wilson is a man of peace and against armed conflict. The peace treaties recently signed by the United States. England, France and Russia will consequently make war impossible. It is only a question of time when all the great Powers will enter into the same compact. Even if war is dis-turbing the minds of men we must be-lieve that God is still on the throne and that He will bring an end to this terrible

Thirty Owners and Agents of Properties Must Answer Charges.

Thirty owners and agents of properties in various sections of the city have been notified to appear before Magistrate Eisenbrown Monday morning at 11 o'clock to reply to charges of operating defective and unsafe elevators in their buildings. The summonses have been issued as result of inspections made by the City Bureau of Elevator Inspection, under the direction of Chief John R. Wolter. Wellknown business establishments are in-cluded in the list of alleged violators of the elevator regulations. Fines of \$50 and costs may be imposed on sub-stantiation of the charges.

Since last spring 407 passenger and freight elevators have been condemned by the bureau inspectors. In some in-stances the elevators were allowed to resume service after designated repairs were made. The 30 suits that have now been in

stituted are declared by Chief Wolter to result from continued disregard of warn-ings on the part of the persons notified to place the elevators in safe condition. Consequently Chief Wolter submitted the ist of owners and agents to City licitor Ryan to start action against them. The Law Department was also requested to take action for the Elevator Bureau against 103 persons alleged to be operating elevators without certificates. The fine in that case is \$50. Effort will also be made to collect delinquent license fees to the bureau for 1912 and 1913.

### CAT VANQUISHED IN BATTLE

One Boy Badly Bitten Before Tormentors Kill Animal.

A homeless cat, attacked by a of boys, gave the neighborhood of 4th and Dickinson streets considerable trouble this afternoon before it even-tually passed away. The cat was basking in the sun when the boys singled it out as a target. The animal stood for a fusillade of bricks and clubs and then started French fashion after its tor-

Daniel Rosen, who was not among the nimal's assailants, was singled out by the cat, which buried its teeth in the boy's arm and leg. Rosen was taken to Mount Sinal Hospital. The youngsters in the neighborhood then executed a flank movement and the cat succumbed just as a policeman was coming to its

BISHOP BERRY RETURNS

Bishop Joseph F. Berry, of the Methodist Episcopal Church, has returned from his vacation, spent in New York and Only The Bishop In New York and Onio. #### CLAYTON ANTI-TRUST BILL Oppose Clause Forbidding Interlock-

BANKERS PROTEST AGAINST

ing Directorates. WASHINGTON, Sept. 30 .- A telegram

from the American Bankers' Association, emposed of 15,000 banking institutions in this country, protesting against the sechibiting interlocking directorates of banks was laid before the Senate today by Vice President Marshall. It was signed by Thomas B. Paton, of New York, general counsel. A direct charge that lobbying has been

conducted against the bill was made in the Senate today by Senator Knute Nelthe Senate today by Senator Knute Nel-son, of Minnesota, one of the conferees on the bill. Senator Nelson, however, gave no names and made no demand for an investigation by the Senate Lobby Committee.
"I have been approached by both men and women lobbyists since this Clay-

ton bill was before the Senate," said Senator Nelson. "Never before have I seen such lobbying during my experience in Congress. But it has become mild, indeed, since this conference report was made public.

"Not at all," replied Senator Nelson These people are only affecting opposi-tion now. They are not afraid of the bill as amended by the conferees. They know it won't hurt them. The vigorous amendment relating to the tying or ex-clusive contracts before it was weakened in conference scared them."

## **HUDSON Six-40** \$1,550 F.O.B. Detroit

## Howard E. Coffin Saves 1000 Needless Pounds

The HUDSON Six-40 for 1915 weighs 2,890 pounds-a seven-passenger car.

around 4,000 pounds. Cars are all being built lighter, still no other maker has attained this lightness yet. So some will argue that sturdy cars can't be as light as this.

Built by old standards, such a car would weigh

But thousands of these cars went out last year. In thousands of hands, on all sorts of roads, not a single shortcoming developed. Never has a car proved stauncher.

The difference is simply this:

Aluminum takes the place of cast iron. Drop forgings take the place of castings. Better designing combines strength with lightness-in a thousand details. One, for instance, is a tubular propeller shaft.

### No More Over-Tax

Needless weight was a heavy over-tax on tires. HUDSON engineers have stopped it. In addition, their new-type motor cuts fuel cost 30 per cent.

Expense excess is out-of-date. The day of modest size and power and price has come. This newmodel HUDSON typines the car of the future.

It is one of the handsomest cars ever built. It has many attractions found in no other carbeauties, comforts and conveniences.

48 engineers-headed by Howard E. Coffin-have devoted four years to this car. Come and see the advances-the scores of new things they've accomplished.

Touring Car and Roadster.
